

# CAP HER2 Survey Products

The following CAP Surveys meet the PT requirements as outlined in the newly adopted CAP/ASCO HER2 testing guidelines and the updated CAP accreditation checklists. To order the appropriate program(s) for your laboratory, please call the CAP Customer Contact Center at 1-800-323-4040, option 1 #.

## ACMG/CAP Fluorescence In Situ Hybridization – Breast Cancer (*HER2* Gene Amplification) CYH

Procedure	CYH	Challenges per Shipment
<i>HER2</i> gene amplification for breast cancer	■	10

### Product Information

Survey CYH is designed for clinical laboratories that perform fluorescence in situ hybridization (FISH) using chromosome-specific *HER2* DNA probes. Participants will use their own chromosome-specific DNA probes and FISH methodology to process and score a series of interphase nuclei for each specimen.

Each mailing will consist of two five-core tissue microarray slides that offer a combined total of ten unique paraffin-embedded breast tissues specimens. A duplicate set of H&E stained tissue microarray slides will be provided with the shipment.

### Ship Dates

Shipment A April 30

Shipment B November 26

## HER2 Immunohistochemistry, Tissue Microarray HER2

Analyte	HER2	Challenges per Shipment
<i>HER2</i>	■	40

### Product Information

Each shipment will contain four ten-core tissue microarray slides, which participants are asked to stain for *HER2* using immunohistochemistry procedures and to provide interpretations.

### Ship Date

Shipment A April 30

Shipment B October 1
