CAP Gives You Two Options to Meet Your FNA Needs

Fine-Needle Aspiration Glass Slide Education Program (FNAG) **NEW**

- Two shipments per year, each with five cases consisting of glass slides
- Select cases will have multiple slides with complementary stains/preparations, and static online images incorporating radiology and ancillary studies
- Laboratory reference interpretations and performance for the glass slides available within 20 minutes by fax
- Interlaboratory educational program allows participants to assess their screening and interpretive skills
- Earn up to 10 CME credits or CE credits/hours 

Online Digital Slide Program in Fine-Needle Aspiration (FNA)

- Two courses per year, each with five online virtual diagnostic challenges featuring static images and clinical history
- Online resources include:
 - Whole slide image technology that simulates a microscope, allowing you to scan the image and use multiple magnifications
 - Ancillary studies selection
 - Case-related education questions, with immediate feedback
- 2010 topics cover soft tissue FNAs including retroperitoneal deep soft tissue
- Earn up to five CME credits or CE credits/hours 

To order or for more information, refer to page 200 of the 2010 Surveys catalog, available online at www.cap.org/catalogs, or call us at 800-323-4040 or 847-832-7000.
